

## FREE SAMPLE OF LAXATIVE CURED HIS CONSTIPATION

When a person has become discouraged through years of failure to find a cure, and finally, perhaps, gives up trying, it is small wonder that he becomes skeptical. And yet, to all who have constipation, we would say, "Try just one thing more!"

We wish you would try Dr. Caldwell's Syrup Pepsin, a laxative tonic that has been used for a generation. Thousands are using it; surely some of your friends among the number. You can buy it of any druggist at fifty cents and one dollar a bottle, but better still, send your name and address to Dr. Caldwell for a free sample bottle. He will send you enough to convince you of its merits, and then if you like it you can buy it of your druggist. Mr. J. J. Petty of Unionville, Mo., Mr. George W. Zimmerman of Harrisburg, Pa., and many others of both sexes and in all parts of the country first used a sample bottle and now have it regularly in the house.

You will learn to do away with salts, waters and cathartics for these are but temporary reliefs while Dr. Caldwell's Syrup Pepsin is guaranteed to cure permanently. It will train your stomach and bowel muscles so that they will do their work again naturally without outside aid. Cast aside your skepticism and try Syrup Pepsin.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

## We Want to See It

Please Let Us Know Date.

Steam is now up on the New Orleans, which has been built on the marine ways at Pittsburgh as an exact replica of the steamer New Orleans, which was the first steamboat on the Ohio river. In every little detail the vessel represents her prototype of 100 years ago. Under her own steam she will soon be ready for her great trip down the Ohio and Mississippi rivers to commemorate the centennial of Nicholas Roosevelt's inaugural of steam navigation on the western rivers. The New Orleans is a two-masted affair with one smoke-stack. She will present a natty appearance to millions of people who will see her on her way down the rivers to her destination at the gulf. President Taft will witness her start from Pittsburgh.

It is an old saying that whooping cough must run its course, but the use of Dr. Bell's Pine-Tar-Honey has demonstrated beyond doubt that such is not the case. It can be cured by the use of this remedy.

### WHAT MAKES AN IDEAL HOME?

BY L. P. W.

The ideal home is not made up simply of furniture, fixtures and decorations. The furnishings may be luxurious, the decorations of the most artistic character, the arrangements for comfort, perfect in every respect, still, if it lacks the sunshine, warmth of love and affection it is not an ideal home. It is marvelous, too, if the home lacks this element, how soon it will be manifest. The absence of it permeates the very atmosphere.

There are homes, however, whose memory is a perpetual joy, and to which we always turn with emotions of gladness and pleasure. They are plain and unpretentious, yet they are filled with beauty because of the spirit of love and affection abiding therein. It is the duty of father and mother to make the home attractive. Make the living rooms pleasant give them the sunniest side of the house. The plant that lives in the shade is sickly and unsightly.

One of the conditions of a pleasant home is the preservation of order. Have a place for everything and put

everything in its place. "Order is heaven's first law."

Every home should have a library. What bread and other articles of food are to the body books are to the mind, and, as the mind craves knowledge, its wants should be supplied or provided for with great care. Some books are inspiring. Every page and sentence stirs us to higher motives and a higher life. A good book is always a genial companion. We should select our libraries with the greatest care, beginning them with the Bible and making the poets our special friends, adding each year, such books as may come within our reach. This is a sure means of refinement and education.

The home is almost as incomplete at the present day without some musical instrument, as it would be without books. We should cultivate a taste for music. Music has a refining, inspiring and patriotic influence. Who has not felt the quickening spirit while singing, or listening to, the sweet melody of the gospel hymns?

It has been said that no great musician has ever been convicted of a great crime. We are certainly a music loving people. Let us have it, then, in the home, nature has done her part generously. She sings to us thro' warbling birds, and whispering pines, rearing waving and whistling winns. The least we can do is to join the melody of nature, and by so doing, we add one more to many bulwarks which should ever protect and surround the home.

**CONSTIPATION**

Indigestion, Bad Breath, Dizziness, Vertigo (blind staggers), Headache, Sallow Complexion, a Tired, Discouraged Feeling are all symptoms of a Torpid Liver.

**HERBINE**

Is an Effective Liver Tonic and Bowel Regulator.

Its powerful reviving influence in the torpid liver brings on an immediate improvement. You feel better at once. The bowels move freely so that the impurities which have clogged up the digestive organs find an outlet. When the system has been thus purified, the bilious, half sick feeling disappears, the complexion clears, the breath becomes sweet, the mind alert and cheerful and there is a fine feeling of exhilaration all through the body.

**Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### TOBACCO TIDINGS.

BY R. F. WHEELER.

### IN THE BURLEY DISTRICT.

On the 26th of Oct., at Lexington, the Burley Tobacco Society inaugurated the campaign for its new ten year pooling plan. The burley people do not do things by halves. A burlesque was given at the fairgrounds. It is reported that two hundred gallons of burlesque were with other

atables was dispensed to five thousand tobacco growers who listened to prominent speakers discuss, and explain, the ten year pooling plan, recently adopted by the board of control, of that organization.

He are told that many of the most prominent and influential of the former independent growers are identified with the movement, and signing up for ten years. Last year they refused to sign for one year. Some smaller pools interfered with the workings of the Society. On account of not being able to get enough tobacco to control the market the Burley Tobacco Society was compelled to declare the pool off. The market for that type of tobacco immediately went down. Members of the Society, independent growers, and members of the small pools all alike had to take half the value of their crops. A loss of several million dollars.

Experience is sometimes a costly lesson, but it seems that some people will learn no other way.

There are in this district men that will acknowledge that the Stemming District Tobacco Association has and is helping the price of the tobacco in the district. Yet they refuse to join their neighbors in the effort on account of some little inconveniences of belonging to an organization. They are willing enough to have the benefit of the organization, but want some one else to pay the price. We are speaking sincerely, respectfully and advisedly in his matter. We know something of the temper of the members of this organization. We know that they are becoming very impatient with the action of some growers, that they are going to let the whole thing fall. If they do it will be hard to ever get them organized again, and the independent growers and others who have opposed the Association, will be glad to have a chance to pool up ten years at a time after they have been a few years at the mercy of the tobacco trust.
